

ZERO-STAGE ASSETS FOR PREMIUM DTC

2026

# THE DTC VISUAL ENGINE

---

Hyper-Realistic Campaign Assets. Zero Physical Logistics.

Proudly Presented:

GORAN DAMNJANOVIC

# THE PRODUCTION BOTTLENECK

---

Competing with heritage brands means you need flawless visual assets. But traditional product photography for glass, liquids, and metallic reflections is slow, wildly expensive, and requires setting up a new shoot for every single new SKU

**Physical photography kills your launch speed and margins.**

# THE V10 ARCHITECTURE

---

WE LEVEL THE PLAYING FIELD. BY FEEDING YOUR PRODUCT CAD FILES INTO THE V10 ENGINE, WE MATHEMATICALLY SIMULATE PERFECT STUDIO LIGHTING, GLASS REFRACTIONS, AND MATERIAL PHYSICS. 150MP CAMPAIGN-READY ASSETS WITHOUT EVER BOOKING A PHOTOGRAPHER

# PRODUCT ENGINEERING. ZERO PROPS

---

- **Flawless Caustics:** Perfect light refraction through glass and liquids
- **Material Physics:** Micro-textures of matte glass, brushed metal caps.
- **SKU Scalability:** Change liquid or label colors instantly.

# THE PRE-SELL PROTOCOL

---

Why wait for the factory? Generate 4K marketing assets and launch your Shopify campaigns weeks before the physical inventory even arrives from the manufacturer. Start generating revenue on day one.

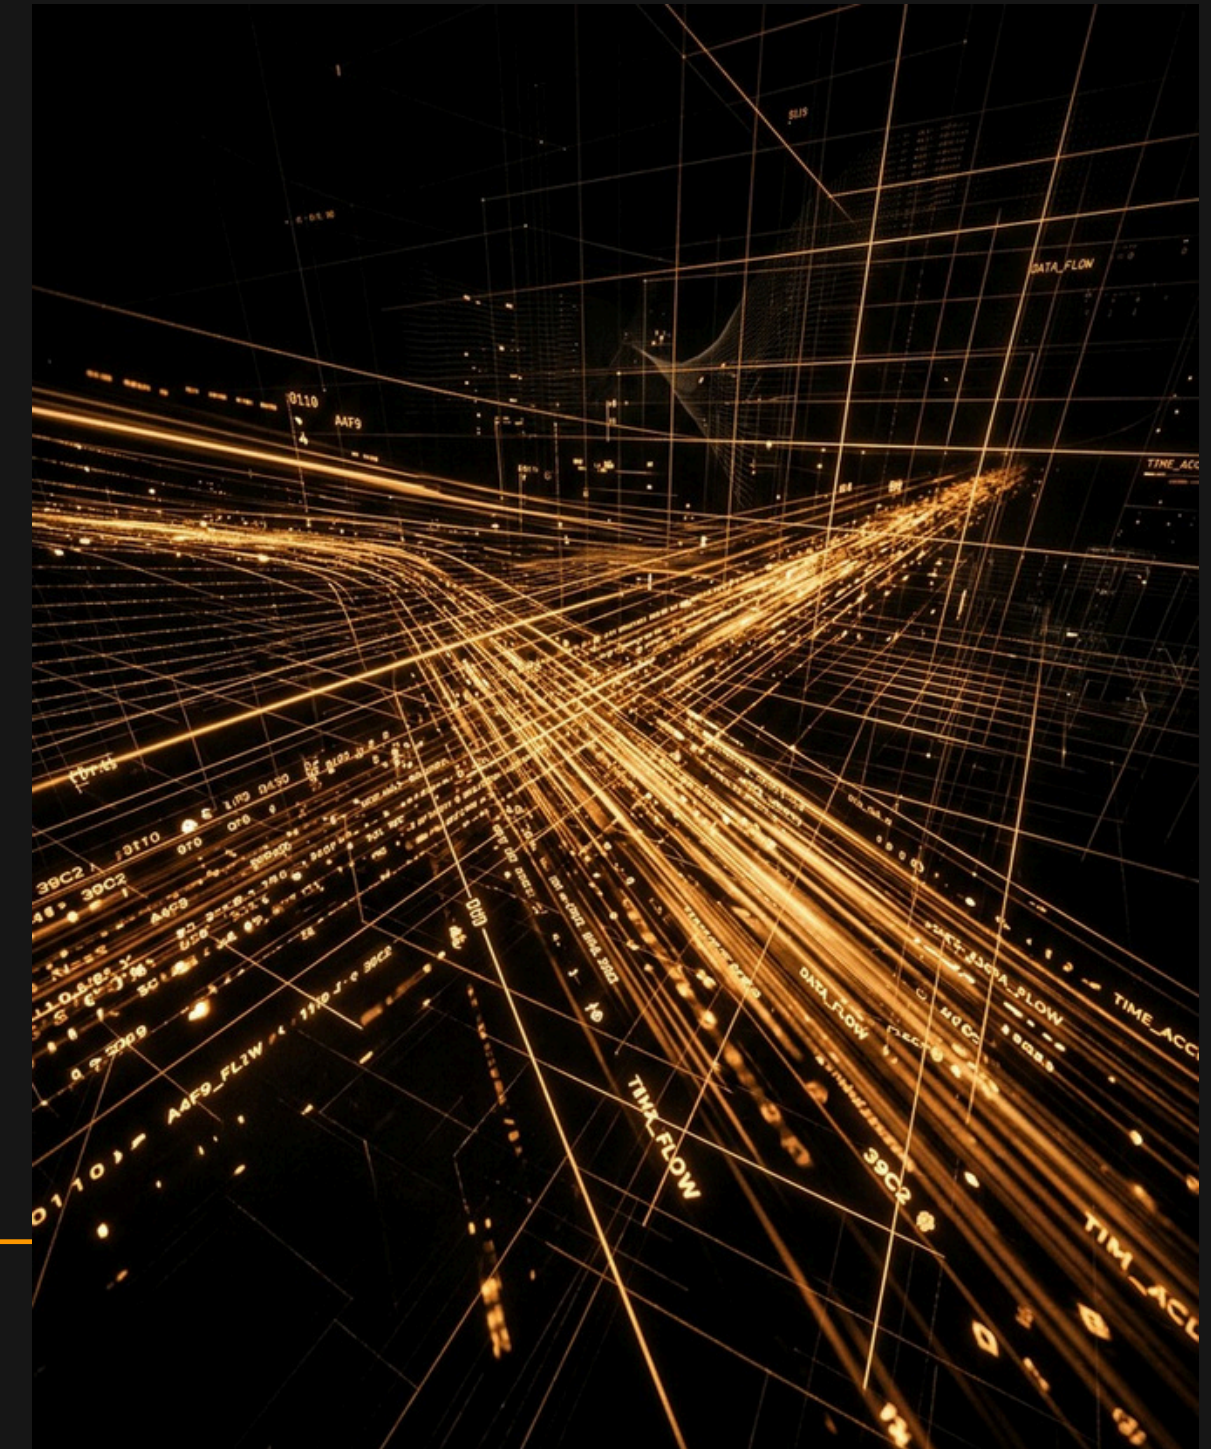

# THE DTC ADVANTAGE

---

Launch your campaigns 60 days faster by skipping physical prototype logistics.

Eliminate set-building, expensive studio day-rates, and photographer fees.

Need the same bottle in 5 different lighting scenarios? We simply swap the node data .

# INITIATE THE ENGINE.
