2026

ZERO-STAGE PROTOCOL

Proudly Presented:

GORAN DAMNJANOVIC

THE PHYSICAL COMPROMISE

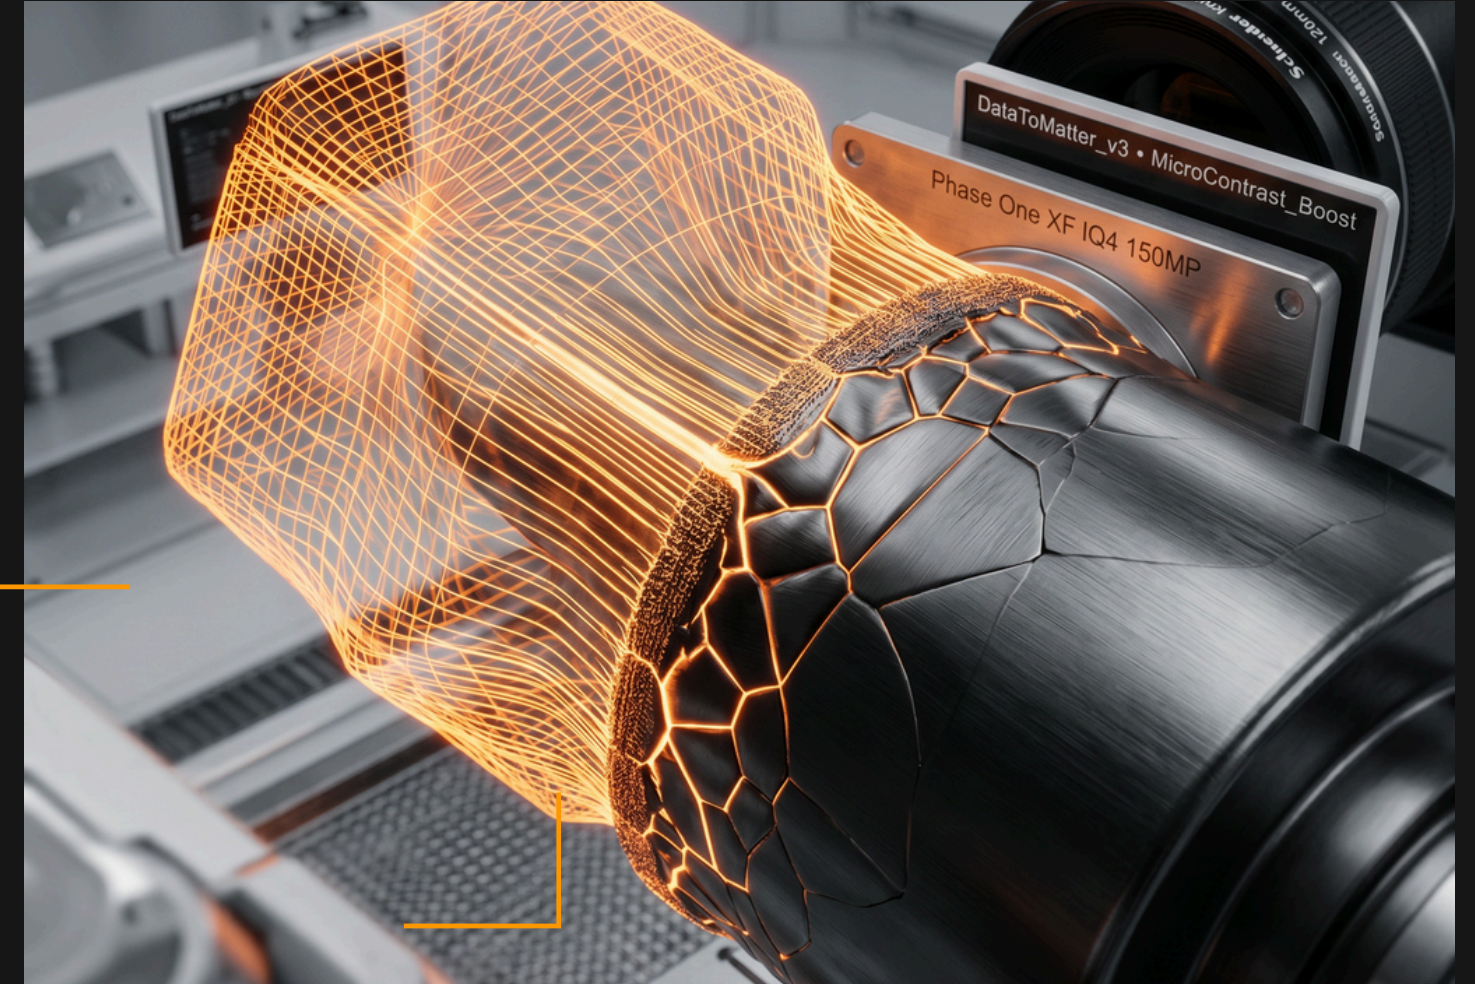

Physical prototypes require shipping, complex staging, and third-party contractors. Every step in traditional photography is a vulnerability. A single smartphone photo can destroy a global embargo. We eliminate the physical risk entirely.

- **LOGISTICAL EXPOSURE:** Transporting classified prototypes invites leaks.
- **THIRD-PARTY RISKS:** Unvetted studio crews and uncontrolled environments.
- **EMBARGO BREACHES:** Millions lost due to premature public exposure.

THE DIGITAL VAULT ENGINE

V10 BYPASSES PHYSICAL REALITY. WE ENGINEER 150MP PHOTOREALISTIC GLOBAL CAMPAIGNS ENTIRELY FROM YOUR ENCRYPTED CAD DATA WITHIN AN AIR-GAPPED DIGITAL ENVIRONMENT. ZERO EXTERNAL ACTORS. ABSOLUTE EMBARGO CONTROL.

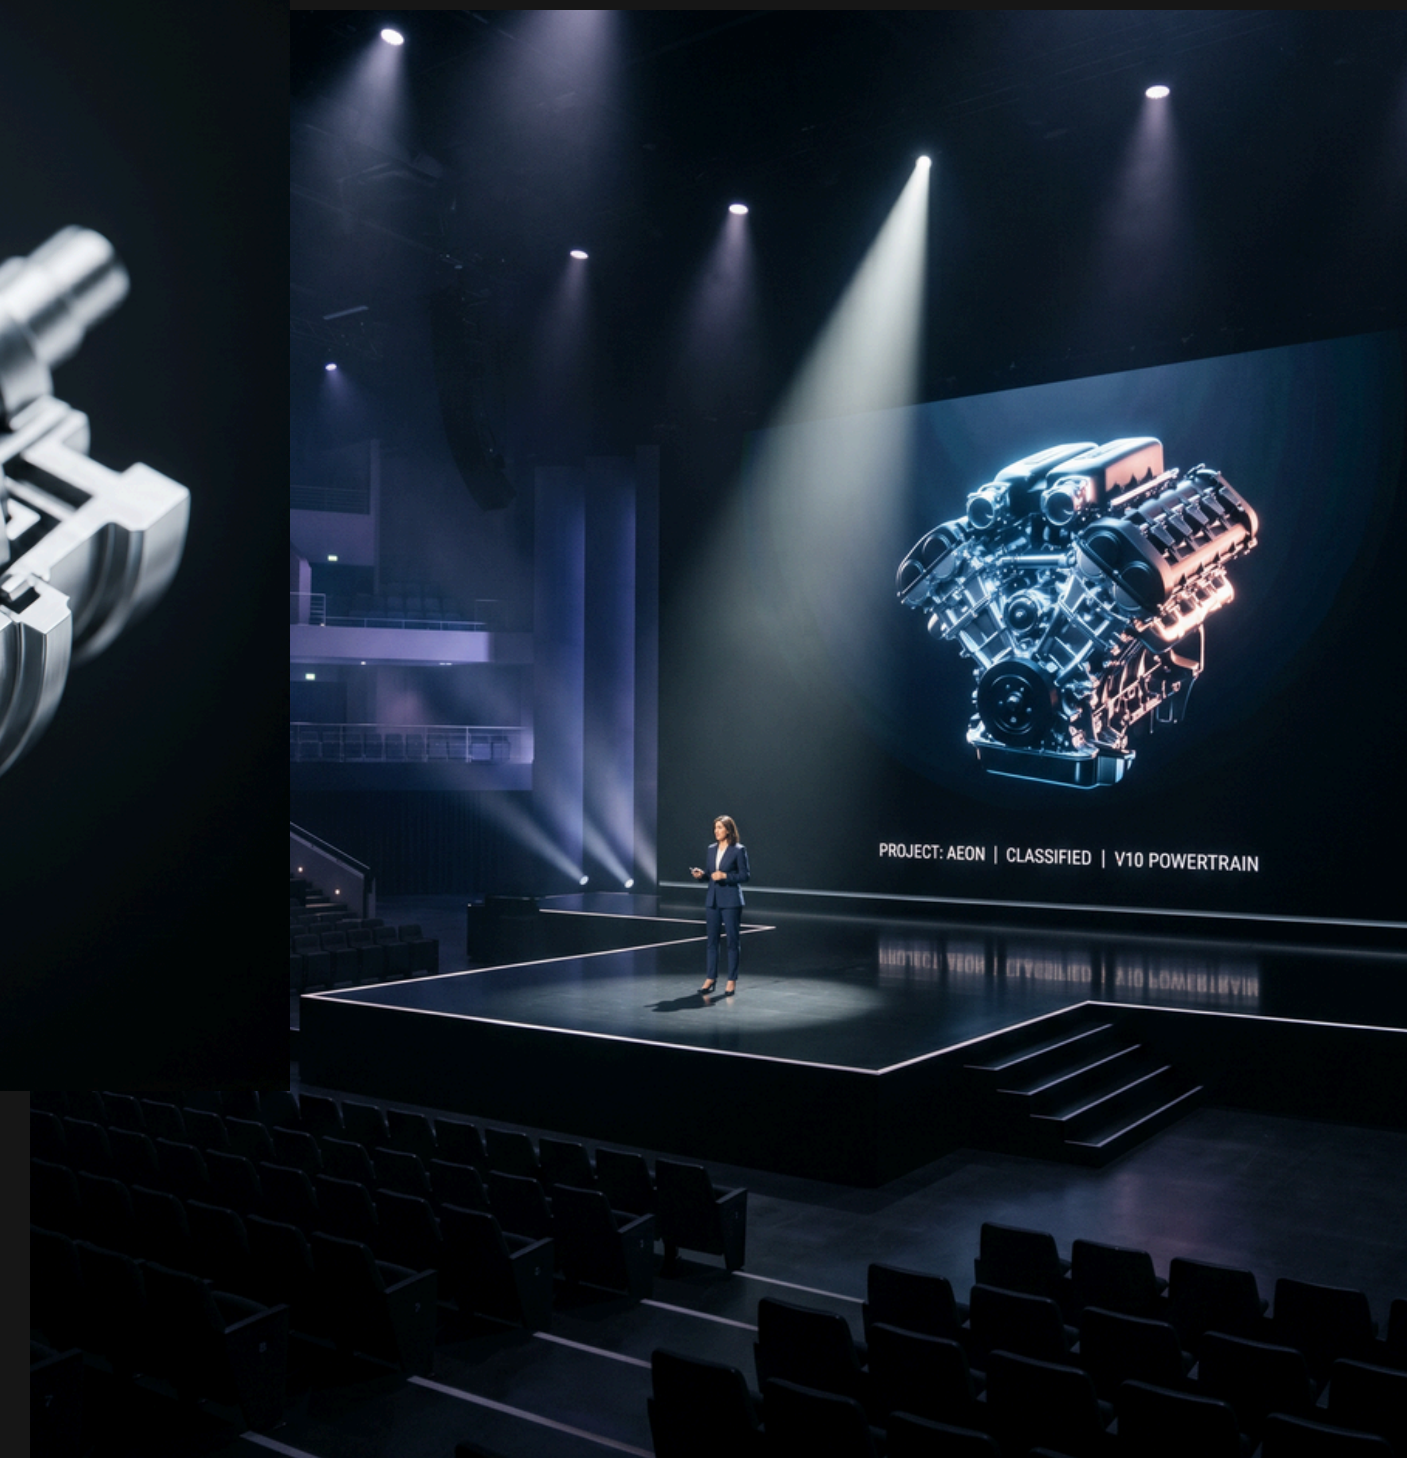

[DOWNLOAD RAW 150MP SAMPLE](#)

- **ZERO-STAGE PRODUCTION:** Campaign ready months before physical manufacturing.
- **AIR-GAPPED SYNTHESIS:** Flawless visuals generated without a physical product.
- **IP-SAFE GUARANTEE:** Total digital containment of your intellectual property.

EMBARGO-READY DEPLOYMENT

We deliver 150MP large-format static assets and hyper-realistic video drops for global keynotes. Precision engineered. Perfectly lit. Kept in absolute secrecy until the second your CEO steps on stage.

SECURE YOUR GLOBAL LAUNCH
